Film Screening & Discussion

FLAG WARS

What happens when gay White homebuyers move into a working-class Black neighborhood? This is **one** story about a community in Columbus, Ohio, undergoing gentrification and the inevitable clashes between residents.

Free screening and discussion on identity, community and gentrification at the historical Tent City. While Urban Renewal threatened to displace neighborhood residents in the South End, Tent City was born from the pitched tents protests in 1968. Today, gentrification remains a persistent threat to our neighborhoods. Come share your thoughts and ideas on how we can prevent displacement.

Friday, April 24th | 3pm-6pm | Tent City
 130 Dartmouth Street | Boston, MA
 Light snacks will be provided | RSVP Online
